Display set up,

Step 1,

Remove all parts from the bag and cartons.Place all them on a clean flat surface.Start from spreading Side support short plates out and assembling the 4 shafts onto 2 flat bases.Install the shaft from the outer hole.

Step 2,

After installing the base,put two long bases at an estimate necessary distance to make it ready for installing Arch After that,start installing the poles into the banner sleeve.Suggest 2 persons for this.Fix the two ends of poles onto shafts on the base.Inner two holes are designed to fix the bungie from the banner to the base.

Step 3,

Adjust the opening on the banner slides to meet the grey mark on the pole which is center of the banner.Then fix the clamp of white supporting pole at the grey mark on both pole kits.

Additional Part

Water bag is available as add-on choice for the base.
